This diagram shows the assembly of two Technic beams. A long grey 1x11 beam with four holes is being connected to a shorter grey 1x5 beam with two holes. Two black pins are used to connect the beams. Red arrows indicate the path of the pins: one pin goes through the second hole of the long beam and the first hole of the short beam; the second pin goes through the fourth hole of the long beam and the second hole of the short beam. A small white square with the number '4' is placed near each pin to indicate the quantity required.

184

185

Diagram 185 shows a grey Technic beam being attached to a purple Technic structure. A red arrow points from the beam to a hole in the purple structure, and a small box with the number 5 is next to the arrow.

187

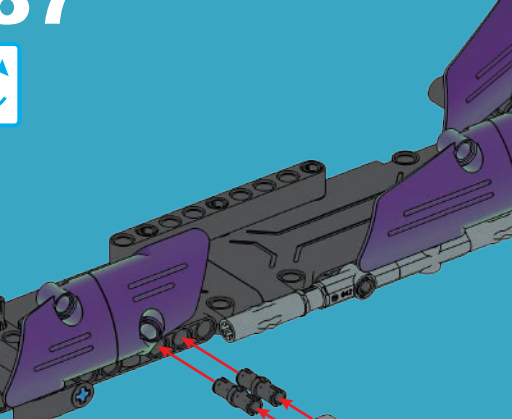

Diagram 187 shows the assembly of a grey 1x6 Technic beam. The beam is being attached to the bottom of the structure. Red arrows indicate the connection points for the grey 1x2 Technic connector with two red pins. A small blue square with the number 2 is in the bottom right corner.
