Authenticated™

More
than
tech
blocks

iM.Master earns prestigious STEM recognitions for Educational Excellence

iM.Master has earned two major recognitions for its leadership in educational and technological innovation. Five product lines received the **STEM.org Authenticated™** trustmark, and the **Hydraulic Series** was awarded **Best in STEM**, placing it among the top 5% of products worldwide for innovation.

These certifications strengthen iM.Master's commitment to learning through play, inspiring children and adults to explore, learn, and develop future-ready skills.

Get to know our brand history

We were founded by Elijah in 2012, following his lifelong passion for making wonderful creations with building blocks.

Between 2014 and 2019 we branded ourselves as Mechanical Master, developed our brand philosophy and started to sell our products on the International stage.

Between 2020 and 2026 we invested heavily in advanced engineering and precision technology.

After 14 years of dedication and focus, our electronic building blocks have secured a leading position within our own niche of the market.

2026 and beyond will see us continue to expand, secure our position and increase market share in new markets across the globe.

We are iM.Master!

BLOCKS IN ACTION!

Where every piece comes to life

Our blocks allow us to create different 3D structures with movement and articulation.

Gear box & recoil function.

Features with smart follow mode.

Radio Control 2,4 GHZ.

Hydraulic Power

Mechanical Power Unit

Innovation and design

5 in 1 robot
with LCD/LED
display eyes

Changing color
effect

Drifting RC
function patented

Wheel ambient lights with
color-changing options.

Performance:

Powerful engine for
high speeds.
Realistic drifting and
tail-sliding capabilities.
Highly playable.

NO.9830

Pull back vehicles Combo

Design:

Streamlined body design.
Detailed interior replicating the real vehicle.

Features:

Basic model with a recoil function.
Two models can be combined to create a larger model, offering more fun building possibilities.

Target audience:

Ideal for beginners who are new to building blocks.
A popular entry-level series.

1:10 2 in 1 super car

Design:

Transforming supercar and
airplane model.
Creative DIY decals.
Opening cockpit in airplane mode.
Opening cars in supercar mode.

Features:

Optional dual remote control power module.
Quick-release ambient dynamic lights.
Built-in speaker in the drive box for
simulated supercar engine sounds.

NO.9821

1:10 super car

Performance:

Powerful engine for high speeds, 3-5 times stronger. Smart programming app for realistic drifting and tail-sliding.

Features:

Lithium battery included. Some models feature painted/color-changing bricks. Innovative 360 new technology exterior building block pieces for a more refined and realistic appearance.

NO.9828-2

NEW 1:6 Rock Crawler

Design:

Innovative 360 new technology exterior building block pieces for a more refined and realistic appearance.

Control:

Dual remote control model.
Self-developed app with multiple gameplay options.

Performance:

High-torque side-wheel motors with 4x the power of conventional offroad vehicles.
Capable of U-turns on the spot and powerful differential climbing.
Multi-link suspension and high-performance shock absorbers.
Opening doors with retractable welcome pedals.
13 cm large tires with 12-process forged wheels for display and collection value.

NO.9829-2

NEW 2 IN 1 Shooter

Design:

Transforming electric space gun and robot model. Multiple lights powered by the main control box on both gun and robot.

Features:

Real-time mechanical linkage with lights and shooting effects. Dynamic battlefield sound effects for a futuristic feel.

Gameplay:

Includes a target. Optional upgrade to professional shooting competition mode (only for open spaces like shooting ranges).

NO.7813

NEW handheld shooters

Design:

Realistic and cool scorpion/falcon design with mechanical hand-held weapons.
Detailed stickers.
Rotating button to fire projectiles for fun shooting.

Features:

10% extra parts for creative DIY modifications.

NO.7802

NO.7801

Automatic rifle

Design:

1:1 scale realistic replica gun for players.
Features detachable magazine, loading bullets, cocking the hammer, and firing.

Gameplay:

Includes a target.
Optional upgrade to professional shooting competition mode (only for open spaces like shooting ranges).
